

LA CLAYMORE
vigneron-récoltant

Château la HAUTE CLAYMORE 2020

LUSSAC SAINT-EMILION AOC

The name of **CLAYMORE** (Scottish great sword) is by itself sufficient to remember the English origins of this historic site where English and French soldiers fought during the One Hundred Years' War.

VINEYARD

Molasse du Fronsadais with muddy facies, calcareous and ferruginous subsoils give this wine roundness, power and intense aromas of red fruits.

Age of vines: 25 years.

MERLOT, CABERNET FRANC

WINE

Tillage cultivation: simple Guyot pruning. Tillage, leaf thinning and green harvesting for better maturity.

Harvesting & Vinification: soft mechanical harvesting, rigorous grape sorting on a vibrating table before vatting. Wine making process is made without the use of SO₂, in vats under temperature control during fermentation and maceration. Daily pumping over, release at mid-fermentation and long maceration of 6 weeks allow to maximise extraction of aromas and tannins.

Ageing: One third in wood. Blending is performed after a 12-18-month vatting period. Natural cold decanting, racking and filtration prior to bottling.

TASTING

A beautiful intense ruby colour, with some subtle poppy red reflections. It has a pretty discreet nose of blackcurrant buds and peony. The wine is fresh and delicate on the palate, with fruity notes of redcurrant.

To be served with roast meats and poultry, legs and game, wine sauces, matured cheese, chocolate desserts...

AWARDS / PRESS
